Implementation of SDGs at the Faculty of Psychology

15. Life On Land

15.4. Land sensitive waste disposal

15.4.2. Policy on plastic waste reduction

Description:

Since 2019, both staff and students in the Faculty of Psychology are requested to use reusable items, like tumblers and tote bags or cloth bags. By using reusable items, we can reduce plastic use and plastic waste we produce in the Faculty of Psychology. Moreover, in the Faculty of Psychology, we have two drinkable-water fountains that all people who visit our faculty could use to refill their tumbler.
