[6]SDG6 : CLEAN WATER AND SANITATION

[6.2] Water consumption per person

To fulfill the demand for clean water within the campus, the Faculty of Medicine, Universitas Indonesia (FMUI) utilizes groundwater, water gallons, and collaborates with the local water utility (PAM) to ensure a consistent supply of clean water. FMUI conducts regular monitoring not only of the monthly water consumption across the campus but also of the status of clean water resources.

The total monthly consumption of clean water in 2022 amounted to 1195 m³, with the following details:

- Average monthly usage of the water utility (PAM) = 616 m³
- Monthly usage of water gallons = 8 m³
- Groundwater usage (average monthly) = 571 m³
