

## **THE Impact Rankings Questionnaire**

Faculty : Faculty of Psychology

University : Universitas Indonesia

Web address : <a href="https://psikologi.ui.ac.id/">https://psikologi.ui.ac.id/</a>

[3] SDG3: Good Health and Well-being

[3.3] Collaborations and health services

## [3.3.5] Mental health support Provide students with access to mental health support.

FPsi UI also offers free mental health services for all students in UI, including peer counseling. Additionally, psychology students have access to professional counseling services with psychologists. The Klinik Terpadu UI provides psychological services to students who are facing mental health issues, supported by the student unit's budget to cover psychologist fees. Mental health services from psychologists are also available to the public for a fee.

FPsi UI provides information about mental health services that are accessible to students from various departments across the university.

The Faculty of Psychology provides counseling services available to students from all departments. The counseling is offered by peer counselors who have been trained by professionals. The service is also supervised by experienced psychologists. Students can register for the counseling service at <a href="https://www.empoweruni.com">www.empoweruni.com</a>.

The Faculty of Psychology organizes various events, such as workshops and talk shows on mental health topics. These topics range from managing negative emotions to personal empowerment, stress management, building resilience, and improving mental well-being. The events cover practical strategies to help individuals cope with daily challenges and foster a positive mindset. These events are conducted both online and offline, targeting not only the campus community but also the general public, providing valuable insights and support to a broader audience.

The Faculty of Psychology is also actively publishing psychoeducational content on social media. The topics discussed are often related to daily trends, making them interesting to read. This psychoeducational content aims to help students overcome challenges and optimize their potential. The image above is an example of such content.
